Open regionalism and the Asia-Pacific Economic Cooperation

ASEAN: Consensus Building and Open Regionalism Asia is host to some unique ideas and experiments in economic integration and international diplomacy. They are the product of ideas that emerged from increasing cooperation and integration in the 1960s and developed through a range of regional projects.

ASEAN: The Experiment in Open Regionalism that Succeeded

A NEW OPEN REGIONALISM IN THE ASIA PACIFIC "Open Regionalism" was the term that came to describe Asia Pacific economic cooperation and the approach to trade facilitation and liberalisation in the late 1980s and 1990s. It emerged from early Asia Pacific discussion of regional trade

A NEW OPEN REGIONALISM

Regionalism must not lead to protectionist blocs—a “fortress Asia” is no more desirable than a “fortress Europe” or a “fortress North America” would be. But the open, outward-oriented regionalism that is emerging in Asia can avoid posing such a threat.

Chapter 1-Why Asian Regionalism?

Open Regionalism is regional economic co-operation without discrimination against countries outside the region. The concept grew from the experience of rapid growth, and expanding trade and investment across national borders, in East Asia and the Pacific. It became the guiding idea of Asia-Pacific Economic Co-operation.

Open Regionalism and Trade Liberalization: An Asia-Pacific

Jiang Zemin stated at the launching ceremony of the SCO that it needed to adhere to four principles: 1) be exploratory and innovative, 2) be pragmatic, 3) uphold solidarity, and 4) adopt an open attitude. 4 Jiang further explained his thinking on regionalism at the thirty-fifth annual conference of the Asian Development Bank on May 10, 2002, making four suggestions: 1) foster the political environment of mutual understanding and harmonious coexistence for the benefit of Asian development; 2 ...

China’s Regionalism in Asia | The Asian Forum

"Regionalism in progress" refers to the agreement of regionally close governments to establish kinds of formal institutions such as the Asia Pacific Economic Cooperation (APEC), the East Asia Summit, or bilateral preferential trade agreements (PTAs) in order to cooperate with each other on various issues.

Regionalization and Regionalism in East Asia

The Asia-Pacific Economic Cooperation (APEC), which was established as a mechanism to foster the creation of a free-trade area, is a good example of loose regionalism, and NAFTA, as a full-fledged free-trade area that falls short of being an economic union, exemplifies a category intermediate between tight and loose regionalism.

Economic regionalism | international relations | Britannica

(Document Summary) Asian regionalism is explored from the perspective that regions do not just exist as material objects in the world, but also as social and cognitive constructs that are rooted in political practice. With specific reference to Asia and the financial crisis of 1997, the following themes are explored: 1.

Regionalism and Asia — Peter Katzenstein

Another step that ASEAN might take on the road to greater regionalism is to open itself to the possibility of taking regional action to help a member-country deal with internal difficulties that have regional or international dimensions; assist member-countries in resolving disputes between them; and keep actions and policies of one member-country from seriously harming others.

Strategic regionalism in East Asia

A 2018 study on the SCO by the Institute for Security Studies identified the SCO not as a regional integration project, but one with a distinct multilateral character that advocates ‘ open regionalism ’, (the attempt to maintain regional and global trading relationships) aimed at stabilising the central Asia region.

The dilemmas of open regionalism: What is Sri

New regionalist projects, which began about the mid-1980s, differed in substance from the earlier rise in regionalist developments, which had begun about the 1950s and later became known by the term old regionalism. The emergence of new regionalism coincided with the end of the Cold War and a period of increasing global economic integration. Its development ultimately led to regional organizations that were more open with respect to trade than those that had formed in the era of old regionalism.

new regionalism | Definition & Theories | Britannica

Asian regionalism is emerging against the backdrop of a remarkable half century of economic development. In the four decades from 1956 to 1996, East Asian living standards—as measured by real (inflation- adjusted) output per person—rose at a rate faster than has ever been sustained anywhere else.
