## *Oracle Application Framework Personalization Guide*

OA Personalization Framework supports end-users as well as localization and customization teams in their efforts to tailor OA Framework-based applications to different users. OA Personalization Framework accomplishes this by allowing you to make personalizations at distinct levels so that you may target those personalizations to specific audiences.

## *Oracle Application Framework Personalization Guide*

As an Oracle E-Business Suite Administrator, you can use OA Personalization Framework to personalize the pages of OA Framework-based applications at various personalization levels without modifying any code.

## *Oracle Application Framework Personalization Guide*

Welcome to Release 12.2 of the Oracle Application Framework Personalization Guide. This guide assumes you have a working knowledge of the following: The principles and customary practices of your business area. Computer desktop application usage and terminology. This documentation assumes familiarity with the Oracle E-Business Suite.

## *Oracle Application Framework Personalization Guide*

OA Personalization Framework uses custom style sheets (.xss files) to specify and manage the visual styles of the Look-and-Feel of applications built with OA Framework. One of the goals of custom style sheets is to allow presentation styles, such as fonts and colors, to be separated from the HTML content to which the styles are applied.

## *Oracle Application Framework Personalization Guide*

Navigate back to the configurable page and launch OA Personalization Framework. Set the personalization level to the level specified in step 3. In the Content mode of the Page Layout Personalization page, use the Add Content page and Create Content button to add the region personalized in the previous step to a desired flexibleContent region.

## *Oracle Application Framework Personalization Guide*

Set profile option "FND: Personalization Document Root Path" appropriately before exporting personalization. Go to Functional Administrator. Click on Personalization tab. Under Import/Export click on Personalization Repository. Give Document Root Path as "/oracle/apps/pos/supplier/webui" and press Go. Page will display all the Personalizations.

Re: OA Framework Personalization user330422 Jun 3, 2011 6:43 PM ( in response to HaroonAfridi ) Thanks Guys for the Feedback. I have created a after insert database trigger and the person table and the address table and added a simple logic to format the data in to a peoper case and its working perfectly. No need to do OA framework modifications ...

Re: OA Framework Personalization Gauravv Nov 17, 2009  
7:30 AM ( in response to Tyro1 ) Hi, Open the page on which you want to do the personalizations. and on whatver region you want to personliase there will "personalise region name " link on the page.

*OA Framework Personalization | Oracle Community*

Due to its declarative nature and durable architecture, the OA Personalization Framework continues to be recommended as the primary means for customizing OA Framework based applications. The supported capabilities, methods and tools for performing personalizations are documented in the Oracle Application Framework Personalization Guide.

*Oracle Application Framework Developer's Guide*

Oracle Application Framework (OAF) provides visual and declarative approaches to Java EE development. The OA framework is also available to customers for personalization's, customizations and custom-application development. - The OA Framework helps to create self Service pages in Oracle EBS.

*Oracle Application Framework (OAF) Tutorials*

R12.2 Extend Oracle Applications: OA Framework Personalizations, This course will be applicable for customers who have implemented Oracle E-Business Suite Release 12.2 This course teaches you how to change the look and behavior of an Oracle E-Business Suite instance without programming (Personalization), and without worrying about losing those personalizations during patching and upgrades.

*R12.2 Extend Oracle Applications: OA Framework ...*

Oracle Application Framework is a proprietary framework
