Diagrammed in: Origami Masters: Bugs. I designed this model with circle packing methods I learned about though Robert Lang's "Origami Insects II" and "Origami Design Secrets". The original 2005 design is very similar to the diagrammed...

Home | Shuki-Kato-Origami

Then I switched to triangle molecules, and finally (for ease of folding) quadrilateral molecules much like in the CP for the centipede in Dr. Lang's book Origami Insects II. This first version is honestly just a proof of concept - the segments on the back were formed in a process more like papier mache than legit origami.

Scutigera coleoptrata 1.1

Mantis J.Lang Volume and fairly complex model origami. from master J.Langa. To see the front of the beauty and sophistication of this Mantis will have to perform 94 steps on the complex, but rather detailed diagram, taken from the popular book Origami Insects II.
