To order any SFH6xx6 optocoupler on tape and reel, add suffix “ T ” after the part number, i.e., SFH6156-3T. The tape is 16 mm and is wound on a 33 cm reel.

~~Packaging Tape And Reel Information Vishay~~

In many sectors and applications today, Tape and Reel has become an important alternative packaging method for trays or tubes. One advantage is that each reel contains more components than a tray or tube, which can drastically reduce your assembly down time. Another is the importance of SMT products arriving to the customer without damage.

~~Tape and Reel—PCA~~

Tape & Reel Packaging Information KEMET offers multilayer ceramic chip capacitors packaged in 8, 12, 16 and 24 mm tape on 7" and 13" reels in accordance with EIA Standard 481. This packaging system is compatible with all tape-fed automatic pick and place systems. See Table 2 for details on reeling quantities for commercial chips.

~~Tape & Reel Packaging Information—KEMET~~

2.1 Tape & Reel † DIN IEC 60 286-3 The components are placed on a plastic tape (carrier tape) made of polystyrene or polycarbonate, with correspondingly shaped recesses in its surface, which is then sealed with a cover tape (transparent foil).

~~Packing—Infineon Technologies~~

Packaging Information. Our packaging system protects our products from mechanical and electrical damage, and our Tape & Reel and tray packing system are designed for automatic pick-and-place equipment.
