Pair work is learners working together in pairs. One of the main motivations to encourage pair work in the English language classroom is to increase the opportunities for learners to use

Download Free Pair Work 1

English in the class.

Example. The learners are answering

comprehension questions in pairs after reading a text. This allows them to compare answers, and clarify problems together using English.

What are factors?

Factors are numbers that divide exactly into another number. For example, the factors of 8 are: 1, 2, 4, 8.

Factors can be shown in pairs.
