Parmenides may be called the founding father of Western philosophy. His poem on the unshaken heart of well-rounded truth and the opinions of mortals contains such astonishing depth of thought that Plato, choosing Homeric epithets, called him reverend and awful (Theaetetus, 183e). Hermann Diels (1848-1922) produced the first critical edition of the poem.

PARMENIDES OF ELEA(born c. 515
BCE) Parmenides of Elea, the most
original and important philosopher
before Socrates, was born c. 515
BCE. He changed the course of Greek
cosmology and had an even more
important effect upon metaphysics and
epistemology. He was the first to focus
attention on the central problem of
Greek metaphysics — What is the
nature of real being? — and he
established a frame of reference within
which the discussion was to be
conducted.
