~~Person-centred care made simple - YouTube~~

Person-centred care. Developing a workforce and community with behaviours, skills and competencies that support and drive person-centred approaches to wellbeing, prevention, care and support. Being person-centred is about focusing care on the needs of individual. Ensuring that people's preferences, needs and values guide clinical decisions, and providing care that is respectful of and responsive to them.

~~Person-centred care | Health Education England~~

In autumn 2017, the RCP facilitated a conversation between doctors and patients about person-centred care in the acute setting. Although there are many examples of outstanding person-centred care,...

~~person-centred care | Search results page 1 | Evidence ...~~

Put simply, being person-centred is about focusing care on the needs of the person rather than the needs of the service. Most people who need health care these days aren't happy just to sit back and let health care staff do what they think is best. They have their own views on what's best for them and their own priorities in life.
