Petrochemical America - Richard Misrach and Kate Orff

Over a decade later, the Museum asked Misrach to return to Cancer Alley to shoot, and then combined this new work with the original series for an exhibition and book called "Petrochemical America,..."

Petrochemical America: Picturing Cancer Alley | The New Yorker

While the photography featured in Petrochemical America is both stunning and thought-provoking, the book's more important contribution lies in part 2, Kate Orff's Ecological Atlas. Just as part 1 began as an art museum exhibit, the visually rich two-page spreads that make up the atlas have the quality of natural history museum displays.
