PHYSICS 151 – Notes for Online Lecture

1.2 1-D Kinematics Kinematics involves the description of the position and motion of objects as a function of time. In this chapter, we will be limiting that motion to a straight line. A number of quantities in this chapter will be defined (distance,

Online Library Physics 151 Notes For Online Lecture

#7 Vector Addition of Velocity One
common application of adding and

Online Library Physics 151

Notes For Online Lecture

subtracting vectors is in calculating relative velocities. We will begin in 1-D and then work our way to more complicated 2-D problems. As an example of these types of problems, suppose that an Amtrak train is traveling at 25 m/s.

Online Library Physics 151

Notes For Online Lecture

25 Waves
macroscopic (everyday) friction are: 1)
Frictional forces depend on the two
materials that are sliding past each other.
A box sliding over a waxed floor
experiences less friction than a box sliding
over an unwaxed floor. 2) There are two
types of friction for most surfaces: static
friction and kinetic (or sliding) friction.
