PHYSICS 4 YOU All Kinds of Motion You have learned about scientific processes that will be useful in your study of physics. You will now begin to use these tools to analyze motion. In subsequent chapters, you will apply these processes to many kinds of motion. You will use words, sketches, diagrams, graphs, and equations.

CHAPTER 2 Representing Motion - legacyjr.net

A system used to describe motion that gives the zero point location of the variable being studied and the direction in which the values of the variable increase. Origin The point at which both variables in a coordinate system have the value zero.
