Like most any other pinball machine manufactured, Gottlieb@ System 1 games use batteries to supply power to the non-volatile RAM memory. Certain game settings, high score thresholds (including high score to date), audit information, and bookkeeping information are all options which are saved when the game is powered off.

Gottlieb System 1 - PinWiki

BriefHistory of Gottlieb System 1 Pinball Machines. TheGottlieb System 1 pinball machines are an interesting mixture of bothgreat mechanical design and poor electronics design. Gottlieb was late getting into the solid state era of pinballmachines. Both Bally and Williams had at least a 2 year headstart on designing their own solid state pinball control systems.
