While POGIL ? Activities are designed to be completed synchronously in a collaborative team setting with the teacher present as the facilitator, there are ways to utilize the activities in an asynchronous online setting. First and foremost, the POGIL activity needs to be converted from a PDF document into one that is accessible to students. There are a variety of methods to do this depending on what learning management system the teacher is employing.

Process Oriented Guided Inquiry Learning (POGIL) is a teaching method that focuses on small groups of students engaging in inquiry-based activities. The approach has been used in STEM disciplines for many years, but is still relatively new to human anatomy and physiology (A&P). The intent of this web site is to provide A&P educators a few POGIL activities, and also provide some guidance in developing teaching strategies for the POGIL classroom.
