'Postwar' is both a period and a state of mind, a sensibility comprised of hope, fear and fatigue in which British society and its writers paradoxically yearned both for political transformation and a nostalgic re-instatement of past securities. From the Labour landslide victory of 1945 to the emergence of the Cold War and the humiliation of Suez in 1956, this was a period of radical political transformation in Britain and beyond, but ...

In Western usage, the phrase post-war era (or postwar era) usually refers to the time since the end of World War II. More broadly, a post-war period (or postwar period) is the interval immediately following the end of a war. A post-war period can become an interwar period or interbellum, when a war between the same parties resumes at a later date (such as the period between World War I and World War II). By contrast, a post-war period marks the cessation of conflict entirely.

Abstract. This thesis adopts an interdisciplinary approach to consider how so-called 'problem families' were conceptualised by the welfare state in post war Britain through an examination of fiction and non-fiction texts. The 1945-75 period has been recognised as the era of the 'classic welfare state', during which successive governments made interventions in the British economy to maintain full employment.
