I would have to agree that the dry and resinous natures of the two do relate to each other easily. Eau Trois, however, has a certain waxy-woody note that does not have a counterpart in Pot Pourri. I don't think that SMN Pot Pourri ...

The Pot-Pourri of Officina Profumo Farmaceutica di Santa Maria Novella is one of its most symbolic products. Production began in the middle of the XVII century. It is a mixture of berries, leaves and petals of flowers typical of the Florentine hills. Until a few years ago the pot-pourri (from the French "rotten vase") was placed in terracotta pots from Impruneta together with the essences obtained from distilling certain of its ingredients.

Jun 3, 2012 - Santa Maria Novella: the Farmacia-Profumeria in Florence, Italy is worth a visit whether or not you're looking to buy bath, beauty, and herbal products. The interior is gorgeous. There is something incredibly seductive about perusing proprietary blends of flora while gazing across the lawn of the monastery, where they have been crafting these same products for hundreds of years.
