About this Course 506,071 recent views Financial Accounting is often called the language of business; it is the language that managers use to communicate the firm's financial and economic information to external parties such as shareholders and creditors. Nobody working in business can afford financial illiteracy.

student comprehension and takes this a step further in the managerial chapters by employing a new theme to help students see how managerial accounting is used as a tool to help all business people make decisions. By providing more meaningful learning tools, this title gives professors the resources needed to help students clear hurdles inside and outside of the classroom, like never before.
