### *Process Engineer Chemical Engineering Oil Gas Jobs ...*

An oil and gas engineer is involved in the process of extracting oil and natural gas from reservoirs. They may be drilling engineers, production engineers, or reservoir engineers, according to the Society of Petroleum Engineers ([www.energy4me.org](http://www.energy4me.org)). In all these stages, an oil and gas engineer uses petrophysics knowledge to ensure that all drilling operations are conducted accurately and efficiently, while complying with laws and environmental standards.
