Designing Web products is also quite different from creating physical products. Because Web products are software-based digital

Access Free Product Design For The Web

Principles, they are fluid and changeable; it's easier to evolve digital products. Web products are never finished. The product can, should, and will change.

Principles Of Designing 01DesignX

The design process is always one of discovery. When we design a product for the Web, discovery is an important part of how we determine what the product

Access Free Product Design For The Web

actually is. When you reach the end of a flow—the edge of the product—imagine a dot, a connection point. Now it's time to discover another dot, and so on.
