The fear of crime refers to the fear of being a victim of crime as opposed to the actual probability of being a victim of crime. Studies of the fear of crime occur in criminology. The fear of crime, along with fear of the streets and the fear of youth, is said to have been in Western culture for "time immemorial".

The SEM results also suggest that exposure to non-U.S. social media (e.g., WeChat and Weibo) is positively related to respondents' fear of crime, whereas exposure to U.S. social media (e.g., Facebook and Twitter) is not related to fear of crime. The current study highlights the importance of studying the impact of fear of crime and social media use on international students.
