Action research refers to a wide variety of evaluative, investigative, and analytical research methods designed to diagnose problems or weaknesses—whether organizational, academic, or instructional—and help educators develop practical solutions to address them quickly and efficiently. Action research may also be applied to programs or educational techniques that are not necessarily experiencing any problems, but that educators simply want to learn more about and improve.

Qualitative Research in Action: A Canadian Primer (Themes ...

Revised on July 30, 2020. Qualitative research involves collecting and analyzing non-numerical data (e.g., text, video, or audio) to understand concepts, opinions, or experiences. It can be used to gather in-depth insights into a problem or generate new ideas for research. Qualitative research is the opposite of quantitative research, which involves collecting and analyzing numerical data for statistical analysis.

The qualitative action researcher analyzes their current practice and identifies areas in need of change or support. The personal, professional and community impacts of action research will enhance the success of both the teacher and students.

How Qualitative Action Research Impacts Teaching | Synonym definition offered by Nkwi, Nyamongo, and Ryan (2001, p. 1):

□Qualitative research involves any research that uses data that do not indicate ordinal values.□ For these authors, the defining criterion is the type of data generated and/or used. In short, qualitative research involves collecting and/or working with text, images, or sounds.

Qualitative Research - SAGE Publications Inc

In the qualitative research project this is the Theoretical Construct and would include the theory which is based on the theoretical perspective and the factors or subjects which relate, or bound, the theory to the research problem. This is your working theory of the phenomena under investigation.

Sample of the Qualitative Research Paper

Action research is a philosophy and methodology of research generally applied in the social sciences. It seeks transformative change through the simultaneous process of taking action and doing research, which are linked together by critical reflection. Kurt Lewin, then a professor at MIT, first coined the term "action research" in 1944. In his 1946 paper "Action Research and Minority Problems" he described action research as "a comparative research
