Radiographic Cephalometry: From Basics to Videoimaging ...

Cephalometric radiography is a standardized and reproducible form of skull radiography utilized by orthodontists to assess the relationship of the teeth to the jaws and the jaws to the facial skeleton. Standardization is necessary for cephalometry which is the measurement and comparison of points, distances, and lines within the facial skeleton.

Radiographic cephalometry : from basics to videoimaging ...

Basic biomechanics are discussed, demonstrating how these principles also relate to the scientific rationale for contemporary and future dental implant designs. A comprehensive discussion of bone density in an edentulous site explains this determining factor in treatment planning, implant design, surgical approach, healing time, and initial progressive bone loading during prosthetic reconstruction.
