~~Relapse Prevention
Plan Domestic
Violence~~

Where To Download

Intimate partner violence (IPV) is a serious problem that has lasting and harmful effects on individuals, families, and communities.

The goal for IPV prevention is to stop it from happening in the first place.

Prevention efforts should ultimately

Where To Download

Reduce the
occurrence of IPV
by promoting
healthy, respectful,
nonviolent
relationships.

The relapse
prevention model
was first developed

Where To Download

to understand relapse from addictive behaviours such as alcoholism and smoking (Marlatt & Gordon 1985), but has since been applied to exercise and physical activity. The model proposes that relapse may result from an individual's

Where To Download

inability to cope with situations that pose a risk of return to the previous behaviour.

Promising Outlook

Most often, a relapse prevention plan is a written document a person creates with their treatment team and shares with their support group. The plan offers a course

Where To Download

of action for
responding to
triggers and
cravings. Relapse
usually isn't a spur-
of-the-moment
event. Typically it
is a three-part
process, including:
