Research Methods in International Relations by Christopher ...

Statistical analyses (or quantitative research) are widely used methods in the study of politics and international relations. While most students in our MPhil programme do not use such methods in their own research, it is likely that they will come across works that do in their course work or when reading about the topic of their research.

Research Methods in International Relations and Politics

The Research Methods module will help you develop a full understanding of the principles and processes for successful international relations research. The aim of the Research Methods module is to facilitate the development of a comprehensive understanding of the principles, techniques and processes that underpin successful research in international relations.

International Relations Research Methodologies - NTU Online

RESEARCH METHODS IN INTERNATIONAL RELATIONS International Relations (IR) is a field of study with a rich genealogy of methodological contestation that draws upon diverse traditions of research in the social sciences. From IR's emergence as an academic field of inquiry in the early 20th century, it

Research Methods in International Relations Christopher Lamont

Research papers on foreign policy are mostly given to the economics and science students. Those who are in management can also be asked to write a research paper on international relations. Unique international relations research paper topics are given here to all such students by the Students Assignment Help professionals here. Those who are unable to figure out that which topic they should pick to write their research paper can take the help of this list.
