The pandemic arrived during a period of faltering global growth, elevated geopolitical risk and an intensifying pushback against globalization. The crisis may exacerbate all those trends. Unlike during the GFC, there is no large-scale international coordination in response as some countries turn inward toward nationalism.

COVID-19: Global Real Estate Implications

Environmental Risks and Global Real Estate, 1st edition. Both in real terms and in the growth of legislation, environmental considerations affect real estate in all sectors. Increasingly there are implications for how we buy, sell, use and value real estate. This guidance note is aimed principally at the land and property acquisition, disposal and asset management stages of the property life cycle.

UBS Global Real Estate Bubble Index 2020 | UBS Global

Rob Wilkinson, chief executive at AEW Europe, believes the biggest risk the private equity real estate industry faces today is rising interest rates resulting from the tapering of quantitative easing. The major concern about rising rates, however, is not how they may affect the ability of property investors to repay debt, but how rate increases may lead to sizable dispositions that could in turn have a negative impact on real estate pricing.
