On the phone, the tone of voice, volume and pace of a sales rep's speech are surprisingly important sales skills. In sales, how you say things to a prospect matters more than what you say. According to Sandler Sales Training, only 7% of communication relies on the content of what you say, whereas 38% of communication is about other attributes of communication such as tonality, etc. As you may have heard before, it's not what you say but how you say it.
