This Apex reference goes into detail about DML statements and the built-in Apex classes and interfaces. DML statements are part of the Apex programming language. You can use them to insert, update, merge, delete, and restore data in Salesforce. Apex classes and interfaces are grouped by the namespaces they're contained in.

Apex Language Reference | Apex Developer Guide ...

Apex is like Java for Salesforce. It enables you to add and interact with data in the Lightning Platform persistence layer. It uses classes, data types, variables, and if-else statements. You can make it execute based on a condition, or have a block of code execute repeatedly.
