server architecture) to the three-tier architecture of database, application, and user interface. Three-Tier Architecture of SAP R/3. Presentation Servers

SAP - Quick Guide - Tutorialspoint

SAP R/3 is the oldest version of the three SAP systems considered here. The name R/3 comes from the three-level architecture of the software. The first level from the user's point of view is the presentation level on which the user interface is located. Below this is the application level, which represents the business logic.

How do SAP R/3, SAP ECC and SAP S/4 HANA differ? - Lana Labs

This style guide reflects the state of R/3 release 4.6. It includes the restructured and reworked contents of the previous SAP R/3 Style Guide (Pocket Version and Updates). The guidelines have been brought up-to-date, and new norms for the SAP user interface as well as new articles covering current design problems have been integrated; parts of them had been offered as an appendix up to now.
