SBR Product Information

Super Barrier Rectifier: An Evolution In Power Rectifier Technology. A central component to a power circuit, or any type of circuit where a signal needs

Access Free Sbr Super Barrier Rectifier

to be conditioned is a rectifying diode.

Traditionally diodes from one of two families are used in these applications: the pn-junction diode and the Schottky Barrier diode.

These technologies are well-

established in circuit design and form the basis of most IC fabrication techniques.
