Junior Science Workbooks | ABA Resources

Science curriculum doesn't have to be expensive. A good portion of what we've used for science over the years have been free resources! I remember science being incredibly dry and boring in school and I want my children's science experience to be anything but boring. Because of that, I seek out resources that offer learning through living books and lots and lots of experiments.

Science For Junior High Workbook Neville Pearce
The Rainbow is a two-year, laboratory-based science curriculum for homeschooled children who are (nominally) in Junior High School (grades 7-9). It is sold with all the laboratory equipment and supplies included to make laboratory science safe and easily doable in a home environment. It is a textbook-driven curriculum so the students are exposed to the theory and principles as well as the laboratory practicum.
