Scribing Plastic Model Kits | Scale Model Shop

Re-scribing panel lines... the very term can make even the most experienced modelers cringe. The molds used for the Italeri 1:48 P40M-N: Kittyhawk Mk4 are the old AMT/ERTL ones and show some deterioration due to age. The fuselage is not too well formed and requires some remedial work; sanding filling and re-scribing of panel lines.

Scribing Panel Lines on Model Airplane Kits - WW2 Model ...

Cut a strip long enough to go around your model's fuselage; cut this strip in half with scissors somewhat raggedly along its length; remove the protective backing from the half strip so that the tape's adhesive is exposed; and apply the half strip of tape around your fuselage so that its straight edge is where you want the desired panel line.

Tech Tips: Scribing Panel Lines - Tsohost

In fact, in most cases it can begin even before you assemble the model. This is because the right time to pre-scribe our panel lines is when each part is easiest to work with (ie its not attached to other parts). We do this by using a scribing tool and lightly tracing over the existing panel lines, while the kit is still in pieces.

Aircraft Panel Lines - ScaleSpot.com

First thing to do is to tape it down along just one edge, and then hold it down firmly onto the surface of the model to do the scribing. Carefully lift it up to see how it went. If you need to go deeper, your tape "hinge" will let you drop it back in the same place to another go.

Plastic Model Scribes, Chisels & Scribing Templates

Usually the first step when scribing a plastic airplane model is to make smooth the parts to be scribed. You can start by shaving off as much detail as possible with a dull hobby knife (a sharp blade increases the chance of gauging into the surface). After shaving, finish the removal by lightly wet sanding with fine sandpaper (800-grit or finer).

Scribing Surface Details on Your Aircraft Model - Model Aces

The scalpel blades are also a good tool to use if you have to remove a panel and cut all the way through since it will only cut a very thin line
