Secrets of the teenage brain. Gregoire, C. (June 14, 2015). Why Are Teens So Moody And Impulsive? This Neuroscientist Has The Answer. Mascarelli, A. L. (October 17, 2012). The teenage brain. Adolescence triggers brain – and behavioral – changes that few kids or adults understand.

~~The Secrets Of The Teenage Brain and How To Live With It!~~

During the teenage years, our brains are both more powerful and more vulnerable than at any other time of our lives. They're powerful because teenagers and children have more synapses —connections between brain cells—than adults do. So teenagers are able to learn much more efficiently than adults, with less effort.
