Selling options is simply a matter of putting time and the odds in your favor. It's up to you to avoid risking too much of your account on any one trade. You must cut your losses if the trades move too far against you. Just assume that two out of every three options you sell will expire worthlessly.

[When to Sell Options on Futures and Commodities](#)

Selling a commodity that you don't own may seem strange at first, but it will become second nature over time. Professional commodity traders typically do not have a bias toward buying or selling. They will sell if they feel a market will move lower and buy if they feel it will move higher. The procedures to buy and sell are both easy, so looking for opportunities in both directions doubles your chances of success.

[The Short Side of Commodities – How to Sell Commodities](#)

Conversely to the commodity option seller, an option buyer views the position as an asset (not a liability) until it is sold or expires. This is because any long option held in a commodity trading account has the potential to provide a return to the trader, even if that potential is small.

[A Brief introduction to Commodity Option Trading ...](#)

In options trading, time value refers to the portion of an option's premium that is attributable to the amount of time remaining until the expiration of the option contract. The premium of any...

The first step to great commodity selling is taking the time to understand your prospect's situation. In this way, you can begin to differentiate your offering from all the others that the prospect might be considering.

[4 Tips for Commodity Selling in a Competitive Market ...](#)

The premise of option selling is based on the assumption that more options than not expire worthless, which has been suggested by several studies including one conducted by the Chicago Mercantile Exchange. Unfortunately, similar to insurance companies who are sometimes forced to honor their policies on excessive claims, commodity option sellers are vulnerable to monster market moves than can be potentially account threatening.

[Increase the odds of Success in Commodity Option Selling](#)

With a futures option, you are projecting that the price of a commodity will rise or fall in excess of the option strike price within a specific time period. This makes this type of speculation incredibly difficult. Unlike other investments, options have a limited life and most expire without being exercised.
