EU Services Directive - GOV.UK

A 'communications provider' is defined in section 405 of the

Communications Act 2003 as someone who provides an electronic communications network or electronic communications service. So this term is broad and includes any organisation that operates a network or service, even if it is a private network or service not available to the public.

Key concepts and definitions | ICO

sometimes one provider will choose to register different services separately at the same site (for example, a large NHS trust may have its main hospital services and an ambulance or mental health service operating in one place but choose to list them as separate locations)

About locations | Care Quality Commission

Service provider - Designing Buildings Wiki - Share your construction industry knowledge. A service provider in the general sense is a vendor who supplies services, rather than actual products. In recent years, the term has been applied largely to companies in the fields of communications and technology, such as Internet service providers (ISPs), however, with the rise of servitisation, almost ...
