candidates, actuaries and actuarial analysts. You can search these resources by title, description or topic using plain text search. Global Search appears in the upper right corner of every page. The available search topic filters include:

Users Guide | Society of Actuaries Actuarial Toolkit

1. Overview. The Society of Actuaries (SOA) created the SOA 2021 Health Care Cost Model (model) to enable users to estimate future U.S. health care insurance costs. As with any forward-looking health care cost model, future health care costs are a function of trending costs forward in time and recognizing new levels and timing of health care costs.

A user can act as a service provider so that he can set SOA User Interface(SOAUI) design into an overall system design where the user interaction workflow is a part of system workflow. The SOA User Interface follows MVC (Model View Controller) architectural pattern. SOA applications provide the model layer, and User Interfaces occupy the view layer.
