7 Smart city solutions to reduce traffic congestion

Competing modes – Just as widening a road is in theory a solution to a congestion problem, building a competing mode is also a theoretical solution. By building a rapid transit line or running an express bus, or even building sidewalks and bike lanes, other people may switch off the road, leaving the roads faster for the rest of us .

21 Strategies to Solve Congestion – Transportist by David ...

One solution to traffic congestion is smart mobility. Smart mobility is the concept of connecting the elements of a city ' s transportation system to the cloud. Data from each element—vehicles, traffic signals, people, roads, and maps —is collected, combined, and analyzed to optimize the flow of vehicles in the city.
