AIAG has released a common supplier management process developed by tier 1 automotive suppliers for use with tier 2 suppliers (CQI-19). It focuses on current automaker concerns, e.g. "pass through" characteristics, risk management, quality involvement in sourcing selection from the pre-selection phase through launch to production monitoring, escalation and development as applicable.

Competency qualification by AIAG in SPC
verifies an individual's competency in
statistical process control techniques as
defined in AIAG's SPC reference manual. The
individual is able to analyze statistics,
explain them, and as a result, can
successfully apply these statistics in their
work environment.
