Spinal injury:

assessment and initial

management

This guideline covers

Download File

PDF Spinal

the assessment and early management of spinal column and spinal cord injury in pre-hospital settings (including ambulance services), emergency departments and major trauma centres. It covers traumatic injuries to the spine but does not cover spinal injury caused by a disease. It aims

Download File

PDF Spinal

to reduce death and disability by improving the quality of emergency and urgent care.

PDF Spinal

disability, with
profound—and in many
cases devastating—
consequences.

According to recent
data, about 12,000
SCIs occur annually
in the United States,
and up to 250,000
Americans are living
with SCIs. Most
victims are aged 16 to
30; more than 80%
are males.
