D3 Technologies - Leader in Autodesk Manufacturing Solutions

CNC Software Solutions by CIM-TECH. Established in 1986, the founders of CIM-TECH realized that a CNC machine was only as good as your ability to program it. Computer Integrated Manufacturing (CIM) was needed to bridge the gap between Computer Aided Design (CAD) and Computer Aided Manufacturing (CAM).

The main benefit of simulation is to avoid collisions and prove out toolpaths. Simulation in the CAM programs has advanced over the past decade thanks to more powerful computers, user-friendly software interfaces, and more realistic 3D graphical representation of all of the elements of the process - machine, fixture, spindles, turrets, cutting tools, and workpieces.
