The Birds Of Ecuador Vol

The Birds of Ecuador is a monumental guide to the birds of this country and does a remarkable job of describing them all... Volume 1 of The Birds of Ecuador could stand alone as a resource; however, it is completed (and made much more useful) by the accompanying volume 2 with its illustrations, descriptions, and range maps. The two volumes of this title will remain the stand for this country and for other South American bird guides for a long time.
