~~The Concept of Man in Early China was hailed at its first release as "exceptional among studies of Chinese philosophy," a work "combining philosophical acumen with sinological competence that raises the study of early Chinese thought to a new level of sophistication." Deserving of renewed attention, this time-tested work will be of enduring value to younger generations of China scholars.~~

~~The Concept of Man in Early China~~

~~MAN It is an individual human. A man belonging to a particular category (as by birth, residence, membership, or occupation). A bipedal primate mammal (Homo sapiens) that is anatomically related to the great apes but distinguished especially by notable development of the brain with a resultant capacity for articulate speech and abstract reasoning, is usually considered to form a variable number of freely interbreeding races, and is the sole living representative of the hominid family.~~
