the Seventeen Provinces of what are today the Netherlands, Belgium, and Luxembourg against Philip II of Spain, the sovereign of the Habsburg Netherlands. After the initial stages, Philip II deployed his armies and regained control over most of the rebelling provinces.

Eighty Years' War - Wikipedia

The Dutch War of Independence was the defining conflict of its era. It secured the triumph of the Reformation in north-west Europe, and along the way reconfigured the geopolitics of the Continent. It also produced one of history's greatest captains, and completed the transition to a new way of war.

Eighty Years' War, (1568–1648), the war of Netherlands independence from Spain, which led to the separation of the northern and southern Netherlands and to the formation of the United Provinces of the Netherlands (the Dutch Republic). The first phase of the war began with two unsuccessful invasions of the provinces by mercenary armies under Prince William I of Orange (1568 and 1572) and foreign-based raids by the Geuzen, the irregular Dutch land and sea forces. By the end of 1573 the ...
