Inflation - Main
Causes of
Inflation |
Economics |

tutor2u

Inflation is a
situation of

Online Library

The Economics

rising prices in the economy. A more exact definition of inflation is a sustained increase in the general price level in an economy.

Inflation means an increase in the cost of living as the

Online Library The Economics

price of goods and services rise. The rate of inflation measures the annual percentage change in the general price level.

Definition of
Inflation -
Economics Help

Online Library

The Economics

Inflation means there is a sustained increase in the price level. The main causes of inflation are either excess aggregate demand (AD) (economic growth too fast) or cost push factors (supply-side factors).
