Masculinity is an evolving construct. Masculinity is defined as the possession of the qualities traditionally associated with men. It may be a set of attributes, behaviours and roles, but is distinct from the definition of male biological sex. Masculinity is a social and cultural construct, differing across cultures and historical periods.

If masculinity can mean anything you want it to mean, as Stage 4 tells us, does it have any meaning at all? The short answer is "no." The bottom line of Stage 5 is that masculinity does not exist.

The Five Stages of Masculinity - The Good Men Project

For women, masculinity is distinctly felt and recognized. By the same token, the absence of true and authentic masculinity can also be felt by a woman. Let me break it down. The world would have us believe that masculinity consists of the physical capabilities of a man. That the bigger, the badder, and the stronger [...]
