As many economies have evolved from producing commodities, through to products, and then onto delivering services, they are now evolving to deliver customer experience. Customer experience is what allows a company to add the highest value and therefore build a competitive advantage over others.

What is the Experience Economy? | Economic evolution explained

The term "Experience Economy" was first used in a 1998 article by B. Joseph Pine II and James H. Gilmore describing the experience economy as the next economy following the agrarian economy, the industrial economy, and the most recent service economy. The concept had been previously researched by many authors. Pine and Gilmore argue that businesses must orchestrate memorable events for their customers, and that memory itself becomes the product: the "experience". More advanced experience busines
