The Globalization Paradox in a Nutshell | Dani Rodrik

Rodrick presents the globalization paradox, or trilemma, that we cannot simultaneously pursue democratic politics, self-determined states, and economic hyper-globalization. Therefore, he calls for a "smart," rather than a "maximum," globalization, where a thin layer of international rules leaves substantial room for maneuver by national governments.

The Globalization Paradox: Democracy and the Future of the World Economy. Dani Rodrik. 2011, W. W. Norton & Company. Surveying three centuries of economic history, Dani Rodrik argues for a leaner global system that puts national democracies front and center.

The Globalization Paradox: Democracy and the Future of the ...

Dani Rodrik's "The Globalization Paradox: Democracy and the Future of the World Economy" portrays the challenges of the implications that our current model of globalization relies upon. Rodrik's work reveals both the implications and connections of the relationships between markets, the states, and globalization in the currently changing world.

The Globalization Paradox Summary - 1640 Words | 123 Help Me

The "globalization's conundrum" is summarized in the following words: [G]lobal markets are doubly problematic: they lack the institutional underpinnings of national markets and they fall between existing institutional boundaries. This dual curse leaves economic globalization fragile and full of transactions costs. . . .

The globalization paradox : why global markets, states, and democracy can't coexist. For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous.

The globalization paradox : why global markets, states ...

Summary Of The Globalization Paradox. Doria Kim ECON503 12/05/17 In Dani Rodrik's The Globalization Paradox, his idea called the "Globalization Trilemma" serves as a variant to the Mundell-Fleming's "Impossible Trinity" and highlights the political economic trilemma of the world economy. He describes national sovereignty, hyper-globalization, and democracy as the three legs of the trilemma.

«The globalization paradox». Reflections and findings from Dani Rodrik's work. by Francesco Capriglione Abstract: The relevant socio-political implications connected to the significative changes of the global economic situation produced by such phenomenon need to be verified. In this regard, the analysis of the relationship between market globalization and political institutions carried out by Dani Rodrik appears to be crucial.
