Dean Burnett is a neuroscientist with a sense of humour. In The Idiot Brain he attempts to describe the inner workings of our minds in a way that we can understand... that is, as far as anyone can understand. Burnett makes no apology about how little even ‘experts’ really know about the functioning of the brain.

The Idiot Brain: A Neuroscientist Explains What Your Head ...

In Idiot Brain, neuroscientist Dean Burnett explained how the most complex organ in the human body is both awe-inspiring and...idiotic. My greatest take-away from Idiot Brain is that the brain isn't evolved enough--or rather, it's very stuck in the past. This is how it's idiotic.

Idiot Brain: What Your Head Is Really Up To by Dean Burnett

A Neuroscientist Explains What Your Head is Really Up To. Buy International Versions of “The Idiot Brain“ UK

The Idiot Brain – Dean Burnett

In The Idiot Brain, neuroscientist Dean Burnett tours our mysterious and mischievous grey (and white) matter. Along the way he explains the human brain's imperfections in all their glory and how these influence everything we say, do...
