Human capital flight - Wikipedia

Human capital is the stock of skills that the labor force possesses. The flow of these skills is forthcoming when the return to investment exceeds the cost (both direct and indirect). Returns to these skills are private in the sense that an individual's productive capacity increases with more of them.

Human Capital - Harvard University

To thrive in an environment that can shift from moment to moment, organizations must become distinctly human at the core. Embedding human principles into the nature of work--principles such as purpose and meaning, growth and passion, and collaboration and relationships--enables the social enterprise to continually reinvent itself on the back of perpetual disruption.
