The Materiality of Color: The Production, Circulation, and ...

Although much has been written on the aesthetic value of color, there are other values that adhere to it with economic and social values among them. Through case studies of particular colors and colored objects, this volume demonstrates just how complex the history of color is by focusing on the diverse social and cultural meanings of color; the trouble, pain, and suffering behind the ...

By emphasizing color's materiality, the way
in which it was produced, exchanged, and used
by artisans, artists, and craftspersons,
contributors draw attention to the
disjuncture between the beauty of color and
the blood, sweat, and tears that went into
its production, circulation, and application
as well as to the complicated and varied
social meanings attached to color within
specific historical and social contexts.

The communities closest to the refinery are predominantly populated by people of color, and those communities and their health are disproportionately affected. Texas Cancer Registry data from 2017 reported that Black people in Jefferson County, which includes Port Arthur, had cancer rates 15% higher than average Texans, and cancer mortality rates nearly 40% higher than the state average. 1
