Levy, who pioneered many of the innovations and
investment instruments that we now take for granted,
has prospered in every market for the past fifty years,
particularly in today's bear market. In The Mind of Wall
Street he recounts stories of his successes and failures
to illustrate how investor psychology and willful self-
deception so often play critical roles in the process.
Like his peers George Soros and Warren Buffett, Levy
takes a long and broad view of the rhythms of the
markets and ...

a collective organism. In fact, this is only one of many effects we shall see in this book that demonstrate just how much the mind influences the market, and in a broader sense how markets seem to have a mind of their own.

~~The Mind of the Market: Excerpt » Michael Shermer~~
Philosophers, politicians, poets and social scientists have debated the cultural, moral, and political effects of capitalism for centuries, and their claims have been many and diverse. The Mind and the Market is a remarkable history of how the idea of capitalism has developed in Western thought. Ranging across an ide
