I purchased one copy and found it so helpful that I purchased two additional copies and have been telling associates about the book. With 20+ years of trading experience in gas and power it is daunting to move over to the oil business but with this book I have much more confidence that I can understand what the oil traders are discussing.

Simon Evans is author of Stopping Places a book describing the history of Gypsies in South London and Kent from the reign of Elizabeth to the end of the 20th century. He describes some of the places in London that have Gypsy connections. The Romany Gypsies of the past left very little in the way of tangible evidence for today ' s historians to study.

A technique used by technical analysts to decide on which measures work best in their specific markets. For instance, the 40-day moving average might generate good signals for oil and commodity markets, but not foreign exchange markets. BY using optimization software, traders hope to work out which measures work well for their specific instruments.
