## WHAT IS THE PHILOSOPHY OF MATHEMATICS EDUCATION

The Philosophy of mathematics education is an interdisciplinary area of study and research based on the intersection of the fields of mathematics education and the philosophy of mathematics, the latter being understood in an inclusive sense to include multidisciplinary theorizing about mathematics incorporating philosophical, sociological, anthropological, semiotic, historical, ethnomathematical, etc., perspectives.

Philosophy of mathematics  
education - Wikipedia

Although many agree that all teaching rests on a theory of knowledge, there has been no in-depth exploration of the implications of the philosophy of mathematics for education. This is Paul Ernest's aim. Building on the work of Lakatos and Wittgenstein it challenges the prevalent notion that mathematical knowledge is certain, absolute and neutral, and offers instead an account of mathematics as a social construction.
